

M Graham Oil Paints

M Graham oil colours are an artist's quality paint made with walnut oil. Although linseed oil has become more popular in modern times, walnut oil has a number of special qualities which is why M Graham chose it as a base for their range creating a paint quality similar to that used by the Great Masters.

The use of walnut oil results in a free flowing and slow drying paint that allows colours to be blended easily without adding solvents. It is non yellowing so doesn't affect the colour of the pigment resulting in richer and more vibrant paintings. It is a 'must have' range for the professional artist.

5141107	Hansa Yellow	37ml	£8.25
5141070	Cadmium Yellow Lt.	37ml	£15.95

5141160	Raw Sienna	37ml	£5.80
5141188	Yellow Oxide	37ml	£8.50

Walnut Oil Medium

Walnut oil can be used to increase flow and slow drying of oil colour, and can be used to clean up, with no need for harmful solvents. The Walnut/Alkyd medium thins colour and accelerates drying, improving adhesion between layers and increasing surface sheen and flexibility. It is non-yellowing and ideally suited for alla-prima and glaze applications.

5142410	Walnut Oil 118ml	£5.95
5161410	Walnut Oil 237ml	£9.25
5142420	Walnut Oil Alkyd 118ml	£7.50
