**ON 8+ AKUA INTAGLIO**

## Akua Intaglio

This non-toxic water-based intaglio ink is like a dream come true. It is strongly pigmented, made with the highest quality of gum binders. Prints sharp images on damp paper and can even be re-soaked immediately after printing. Akua-Intaglio wipes easily from the plate and still prints fine lines, subtle aquatints and strong blacks. 236ml.

Rostow and Jung have reformulated the Akua Intaglio to a thicker more buttery consistency which is proving to be more popular and there are now 6 more colours added to the range.

	540603 Hansa Yellow 236ml	<b>£19.95</b>

## Safewash Caligo Etching Inks

Applications: all types of intaglio printing (ie: etching, aquatint, line engraving, mezzotint etc).

Caligo Safe Wash Etch inks are designed to wash away safely and easily with just soap and water, without the need for harmful and expensive solvents. However, unlike other inks, Caligo Safe Wash etching inks are still oil-based and will therefore handle and print like traditional oil-based printing inks.
