

Lukas Moist Artist Watercolours

LUKAS

Lukas' range of moist watercolours has been produced since 1862. Lukas use the best pigments ground as finely as possible for transparency, in high concentration. Moisturising agents assure rapid application, even of used paint that has dried on the palette. Available in half pans, whole pans and 24ml tubes. This is a great range incorporating quality and value for money, ideal for the professional or student.
