

Tapers **(TNL 1739 – 17392)**

1. Identification

Tapers.

2. Composition/Information on Ingredients

A combination of Paraffin wax (>30%) and Cotton wick (< 1%).

3. Hazards Identification

This product is not hazardous, as defined by the EC Dangerous Substances/Preparations Directives. Do not leave burning candles unattended. Candle must be placed on a non-flammable base or in an appropriate candleholder.

4. First-Aid Measures

| | |
|--------------|--|
| Eye contact | Flush eye with water for 15 minute. Seek medical advise. |
| Skin contact | Molten wax should be removed with cold water immediately and medical attention sort for burns. |
| Inhalation | No applicable. |
| Ingestion | Not expected to be a problem if ingested. If uncomfortable, obtain medical aid. |

5. Fire-Fighting Measures

| | |
|--|--|
| Extinguishing media | CO ₂ , foam, chemical and water fog, or fire blanket. |
| Protective equipment for Fire-fighters | Self-contained breathing apparatus. |

6. Accidental Release Measures

In the event of a large spillage, any wax entering the sewers will solidify and may cause blockages. The authorities should be informed if this occurs. Allow spilt hot wax to cool and solidify and remove the solid for subsequent disposal.

7. Handling and Storage

Do not use hooks on cartons. Do not throw cartons (this could cause breakage of the product). Store in a cool, dry place. Do not over-stack. No other special precautions are necessary.

8. Exposure Control and Personal Protection

No special requirements are necessary.

9. Physical and Chemical Properties

| | |
|-------------------------------------|----------------|
| Physical form | Solid |
| Colour | White |
| Odour | Characteristic |
| pH of aqueous solution | Not applicable |
| Boiling point | Not determined |
| Melting point | Not determined |
| Viscosity | Not applicable |
| Flash point | >170°C |
| Flammability solid/gas | Not applicable |
| Autoflammability | Not applicable |
| Explosive properties | Not applicable |
| Oxidising properties | Not applicable |
| Vapour pressure | Not applicable |
| Specific gravity | Not determined |
| Water solubility | Insoluble |
| Bulk density | Not determined |
| Partition coefficient octanol/water | Not applicable |
| Explosive limits | Not applicable |

10. Stability and Reactivity

Stable at ambient temperatures.

11. Toxicological Information

The product poses virtually no hazard to health when used in normal industrial practice. There is no hazard from inhalation of the vapour nor is ingestion considered to be a normal industrial hazard. Wax fumes may cause eye and respiratory tract irritation if present in sufficiently high concentration and in such circumstances efficient localised extraction must be employed. Skin sensitisation or irritation is very infrequent.

12. Ecological Information

The material used in this product are not damaging to the environment and unused/unburned items can be disposed of by normal household disposal methods.

13. Disposal Considerations

Disposal considerations must take into account that waxes are general non-biodegradable in the short term. Non-recoverable waste should be disposed of via a licensed waste contractor.

14. Transport Information

| | |
|-----------------------|---------------|
| UN number | Not assigned |
| IMDG code/class | Non hazardous |
| ICAO/IATA (air) class | Non hazardous |
| RID/ADR class | Non hazardous |
| ADNR class | Non hazardous |

15. Regulatory Information

EC labelling not required. Product has been reviewed under COSHH/CHIP regulations no action considered necessary.

16. Other Information

The information provided on this sheet is based on our knowledge of the product concerned at the date of issue. It is provided in good faith. Users should also bear in mind that risks may arise when a product is put to uses other than those for which it is destined.
