## Erasol (TNL 8992)

### 1. Identification

Erasol

### 2. Composition/Information on Ingredients

Caustic solution containing a weak Potassium Hydroxide

### 3. Hazards Identification

Corrosive and Irritant.

### 4. First-Aid Measures

|              |   |
|--------------|---|
| Eye contact  | Can be an irritant. Wash well with water and seek medical advice. |
| Skin contact | Can be an irritant. Wash well with water.                         |
| Inhalation   | If discomfort arises seek medical advice.                         |
| Ingestion    | Effect not known. Seek medical advice.                            |

### 5. Physical and Chemical Properties

|                                     |                |
|-------------------------------------|----------------|
| Physical form                       | Liquid         |
| Colour                              | Clear          |
| Odour                               | Not determined |
| pH of aqueous solution              | Not determined |
| Boiling point                       | Not determined |
| Melting point                       | Not determined |
| Viscosity                           | Not determined |
| Flash point                         | Not determined |
| Flammability solid/gas              | Not determined |
| Autoflammability                    | Not determined |
| Explosive limits                    | Not determined |
| Oxidising properties                | Not determined |
| Vapour pressure                     | Not determined |
| Density                             | Not determined |
| Water solubility                    | Not determined |
| Other solubility                    | Not determined |
| Bulk density                        | Not determined |
| Partition coefficient octanol/water | Not determined |
| Explosive limits                    | Not determined |

### 6. Disposal Considerations

Dispose of according to a recognised method of chemical waste disposal.

## 7. Regulatory Information

Not applicable.

## 8. Other Information

*The information provided on this sheet is based on our knowledge of the product concerned at the date of issue. It is provided in good faith. Users should also bear in mind that risks may arise when a product is put to uses other than those for which it is destined.*
