

### Rabbit Skin Glue

(TNL 841001 - 841500 )

#### 1. Identification of the substance/preparation and of the company/undertaking

<b>Product name:</b>	Rabbit Skin Glue Powder/Granules
<b>Application:</b>	Artists' Size
<b>Company name:</b>	Lawrence Art Supplies 36 Kingsthorpe Road Hove BN3 5HR
<b>Tel:</b>	01273 260260
<b>Fax:</b>	01273 260270
<b>Email:</b>	artbox@lawrence.co.uk

#### 2. Hazards identification

##### Classification of the substance or mixture.

In compliance with EC regulation No. 1272/2008 and its amendments.

This mixture does not present a physical hazard. Refer to the recommendations regarding the other products present on the site.

This mixture does not present an environmental hazard. No known or foreseeable environmental damage under standard conditions of use.

##### Label elements

In compliance with EC regulation No. 1272/2008 and its amendments.

Hazard statements: None

##### Other hazards

In use, may form flammable/explosive dust-air mixture.

The mixture does not contain substances classified as 'Substances of Very High Concern' (SVHC)  $\geq 0.1\%$  published by the European Chemicals Agency (ECHA) under article 57 of REACH. The mixture satisfies neither the PBT nor the vPvB criteria for mixtures in accordance with annexe XIII of the REACH regulations EC 1907/2006.

#### 3. Composition/information on ingredients

Rabbit Skin Glue is not classified as hazardous.

#### 4. First aid measures

As a general rule, in case of doubt or if symptoms persist, always call a doctor. NEVER induce swallowing by an unconscious person.

## First Aid Measures

If inhaled:	Breathe fresh air. No special measures required.
In case of skin contact:	Watch out for any remaining product between skin and clothing, watches, shoes, etc.
In case of eye contact:	Wash thoroughly with fresh, clean water for 15 minutes holding the eyelids open. If there is any redness, pain or visual impairment, consult an ophthalmologist.
If swallowed:	Seek medical attention, showing the label.

## Most important symptoms and effects, both acute and delayed

No data available.

## Indication of any immediate medical attention and special treatment needed

No data available.

## 5. Fire-fighting measures

Non-flammable.

Extinguishing media

Suitable methods of extinction

In the event of a fire, use:	sprayed water or water mist foam multipurpose ABC powder BC powder carbon dioxide (CO <sub>2</sub> )
------------------------------	--

Unsuitable methods of extinction

In the event of a fire, do not use:	water jet
-------------------------------------	-----------

Special hazards arising from the substance or mixture

A fire will often produce a thick black smoke. Exposure to decomposition products may be hazardous to health.

Do not breathe in smoke.

In the event of a fire, the following may be formed:	carbon monoxide (CO) carbon dioxide (CO <sub>2</sub> )
--	---

Advice for firefighters

No data available.

## 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

For first aid worker:	Consult the safety measures listed under headings 7 and 8. First aid workers will be equipped with suitable personal protective equipment (See section 8).
-----------------------	---

**Environmental precautions** Prevent any material from entering drains or waterways.

### Methods and material for containment and cleaning up

Retrieve the product by mechanical means (sweeping/vacuuming): do not generate dust.

**Reference to other sections** No data available.

## 7. Handling and storage

Requirements relating to storage premises apply to all facilities where the mixture is handled.

### Precautions for safe handling:

Always wash hands after handling. Remove and wash contaminated clothing before re-using.

Fire prevention:	Prevent access by unauthorised personnel.
Recommended equipment and procedures:	For personal protection, see section 8. Observe precautions stated on label and also industrial safety regulations.
Prohibited equipment and procedures:	No smoking, eating or drinking in areas where the mixture is used.
<b>Conditions for safe storage, including any incompatibilities</b>	No data available.
Packaging:	Always keep in packaging made of an identical material to the original.
<b>Specific end use(s)</b>	No data available

## 8. Exposure controls/personal protection

### Control parameters

No data available.

### Exposure controls

Personal protection measures, such as personal protective equipment:

Pictogram(s) indicating the obligation of wearing personal protective equipment (PPE):

Use personal protective equipment that is clean and has been properly maintained. Store personal protective equipment in a clean place, away from the work area. Never eat, drink or smoke during use. Remove and wash contaminated clothing before re-using. Ensure that there is adequate ventilation, especially in confined areas.

### Eye / face protection

Avoid contact with eyes. Before handling powders or dust emission, wear mask goggles in accordance with standard EN166.

### Hand protection

Wear suitable protective gloves in the event of prolonged or repeated skin contact. Use suitable protective gloves that are resistant to chemical agents in accordance with standard EN374.

Gloves must be selected according to the application and duration of use at the workstation.

Protective gloves need to be selected according to their suitability for the workstation in question: other chemical products that may be handled, necessary physical protections (cutting, pricking, heat protection), level of dexterity required.

Recommended properties:

Impervious gloves in accordance with standard EN374

### Body protection

Work clothing worn by personnel shall be laundered regularly. After contact with the product, all parts of the body that have been soiled must be washed.

Respiratory protection

Avoid breathing dust.

Type of FFP mask:

Wear a disposable half-mask dust filter in accordance with standard EN149.

## 9 Physical and chemical properties

Information on basic physical and chemical properties

### General information:

Physical state: Powder or dust.

### Important health, safety and environmental information:

pH: 6.50 - Neutral.

Boiling point/boiling range: Not specified.

Flash point interval: Not relevant.

Vapour pressure (50°C): Below 110 kPa (1.10 bar).

Density: < 1

Water solubility: Soluble.

Melting point/melting range: Not specified.

Self-ignition temperature: Not specified.

Decomposition point/decomposition range: Not specified.

### Other information

No data available.

## 10. Stability and reactivity

**Reactivity:** No data available.

**Chemical stability:** This mixture is stable under the recommended handling and storage conditions in section 7.

**Possibility of hazardous reactions:** No data available.

**Conditions to avoid:** Avoid formation of dusts Dusts can form an explosive mixture with air.

**Incompatible materials:** No data available.

**Hazardous decomposition products** The thermal decomposition may release/form: carbon monoxide (CO) carbon dioxide (CO<sub>2</sub>).

## 11. Toxicological information

Information on toxicological effects

No data available.

Substances No toxicological data available for the substances.

Mixture No toxicological data available for the mixture.

## 12. Ecological information

### Toxicity

Mixtures

No aquatic toxicity data available for the mixture.

**Persistence and degradability** No data available.

**Bioaccumulative potential** No data available.

**Mobility in soil** No data available.

**Results of PBT and vPvB assessment** No data available.

**Other adverse effects** No data available.

## 13. Disposal considerations

Proper waste management of the mixture and/or its container must be determined in accordance with Directive 2008/98/EC.

Waste treatment methods

Do not pour into drains or waterways.

Waste:

Waste management is carried out without endangering human health, without harming the environment and, in particular without risk to water, air, soil, plants or animals.

Recycle or dispose of waste in compliance with current legislation, preferably via a certified collector or company. Do not contaminate the ground or water with waste, do not dispose of waste into the environment.

Soiled packaging:

Empty container completely. Keep label(s) on container.  
Give to a certified disposal contractor

## 14. Transport information

Not classified as dangerous.

Exempt from transport classification and labelling.

## 15. Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

Classification and labelling information included in section 2:

The following regulations have been used:

EU Regulation No. 1272/2008 amended by EU Regulation No. 487/2013.

EU Regulation No. 1272/2008 amended by EU Regulation No. 758/2013.

EU Regulation No. 1272/2008 amended by EU Regulation No. 944/2013.

EU Regulation No. 1272/2008 amended by EU Regulation No. 605/2014.

EU Regulation No. 1272/2008 amended by EU Regulation No. 1297/2014.

Container information:

No data available.

Particular provisions:

No data available.

Standardised American system for the identification of hazards presented by the product in view of emergency procedures (NFPA 704):

NFPA 704, Labelling: Health=0 Inflammability=1 Instability/Reactivity=1 Specific Risk=none

**Chemical safety assessment**

No data available

**16. Other information**

This product should be stored, handled and used in accordance with good hygiene practices and in conformity with any legal regulations.

To best of our knowledge the information contain herein is accurate. However, neither the above supplier assumes any liability whatsoever for the accuracy or completeness of the information herein Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist
